

**FM LEAN-Neuheit!**

**Monitor & Tablet Holders  
incl. mounting set  
for aluminium profiles with groove**

See the difference

An ergonomically optimized workspace increases both comfort and efficiency. Our new monitor and tablet holders provide a **flexible and stable solution for ideal positioning of your screens and tablets**. Made from high-quality materials, they guarantee longevity and secure support—even with intensive use.

Our holders can be easily mounted on profile systems with groove and other common attachment points. Thanks to **individually adjustable tilt and swivel angles**, every screen can be optimally aligned to promote ergonomic posture and relaxed working conditions. Whether in the **office, production, or home office**—our holders ensure maximum comfort everywhere.

In addition to keeping **workspaces organized according to the LEAN 5S principle**, our holders also support workplace health. Thanks to customizable height and angle adjustments, they perfectly adapt to employees' needs, reducing neck strain and fatigue. This, in turn, increases **long-term health and improves work quality**—no more makeshift solutions or wobbly screens. With our monitor and tablet holders, everything **stays stable, flexible, and perfectly tailored to the user**.

**What Makes Our Monitor & Tablet Holders Special?**

- **High Precision:**  
Robust construction for secure support
- **Easy Installation:**  
Quickly mounted & flexibly adjustable
- **Ergonomics:**  
Adjustable tilt & swivel angles
- **Compatibility:**  
Suitable for various screen & tablet sizes
- **Durability:**  
High-quality materials for long-term use

**LEANPLUS**

- Process Standardization**  
Simple installation and modular design
- 5S Principle**  
Organized workspace with fixed positions for monitors & tablets
- Waste Reduction**  
Minimized unnecessary movement & waiting times
- Ergonomics**  
Optimal screen positioning for improved posture

Optimize Your Workspace with Our System Arms.  
Securely hold monitors, tool holders, grab containers,  
and tablets in place.
